£25.00

## INTEGRATOR PRICE LIST - NOVEMBER 2021

### All-In-One Conferencing Cameras

#### One Touch

**One Touch**  
£999.00

All-in-one videoconferencing camera with a plug-and-play USB-C video output. 120-degree wide-angle HFOV and 5x digital zoom. 4K image quality over USB-C. Group auto-framing.

4 beamforming microphones with DSP audio processing, 360-degree pickup and 5m range. 92dB 2-inch speaker.

Control via UVC FECC, NECC, VISCA over IP and IR remote.

### One Touch Accessories

#### Accessories

**OT-Mount-1**  
£54.00

| Wall mount bracket for One Touch camera. Black

#### Compact One

**Compact One**  
£369.00

An intelligent auto-framing ePTZ camera with a plug-and-play USB 2.0 video output. 120-degree super wide-angle HFPV and 4x digital zoom. 3840x2160p 30fps ultra-high resolution 4K image quality.

2 built-in microphones with an optimal pickup range of 5 metres. No audio output built into the Compact One.

Control via UVC (Zoom Rooms), IR remote and Angekis desktop app.

### Multi-Connectivity Cameras

USB, HDMI, SDI and IP cameras.

As well as USB, Angekis offer multi-connectivity PTZ cameras for other forms of video capture, such as: recording and streaming. For these applications, users will be needing a HDMI, SDI or IP output and in some cases, they'll need to work simultaneously.

Angekis' range of Saber cameras offer simultaneous USB, HDMI, SDI and IP outputs for multi-functioning rooms looking to video conferencing, live stream and display.

The Saber ranges feature greater zooming capabilities for use in larger spaces, plus Power over Ethernet to remove the need for power supplies.

**Saber Plus**  
£1,249.00

| Full-HD PTZ camera with simultaneous USB 3.0, HDMI, SDI and IP video outputs. 72.5-degree HFOV and 12x optical zoom plus 2x digital. Control via FECC, NECC, RS-232 and an IR remote. Low lux of 0.01 lux. Reverse mountable and image flip supported. Silver/Black.

**Saber Plus White**  
£1,249.00

| Saber Plus camera but in white.

**INTEGRATOR PRICE LIST – NOVEMBER 2021**

<b>Saber IP20X</b> £1,349.00	Full-HD PTZ camera with simultaneous USB 3.0, HDMI, SDI and IP video outputs. 60-degree HFOV and 20x optical zoom plus 2x digital. Control via FECC, NECC, RS-232 and an IR remote. Low lux of 0.01 lux. Reverse mountable and image flip supported. Silver/Black.
<b>Saber IP20X White</b> £1,349.00	Saber IP20X camera but in white.

## INTEGRATOR PRICE LIST – NOVEMBER 2021

### NDI Cameras

#### NDI|NX PTZ & Fixed Cameras

NDI has revolutionised live streaming by supporting high quality, low latency video over standard ethernet connections. With the Angekis range of Saber NDI cameras, you can now output multiple video streams on a shared connection via NDI. The Saber NDI camera range connects seamlessly to all your other NDI hardware.

All the NDI Saber models retain the features of the original Saber models, however; with the added NDI|HX output.

**Saber IP20X NDI** | Saber IP20X camera but with the additional NDI|HX video output. Silver/Black.  
**£1,599.00**

**Saber IP20X NDI White** | Saber IP20X camera but with the additional NDI|HX video output. White.  
**£1,599.00**

**Saber 4K NDI** | Saber 4K camera but with the additional NDI|HX video output. Silver/Black.  
**£1,999.00**

**Saber 4K NDI White** | Saber 4K camera but with the additional NDI|HX video output. White.  
**£1,999.00**

**Saber F NDI** | Saber F camera but with the additional NDI|HX video output. Metal Grey.  
**£899.00**

### Auto-Tracking Systems

#### Saber Auto-Pilot Systems

In education and training environments, camera auto tracking is widely used and highly beneficial for an up-close shot of a presenter who will be moving around. These are usually IR-based systems where the tracking camera will follow an IR lanyard on the presenter, however; Angekis' Saber Auto-Pilot is unique and utilises facial, motion and shape tracking to accurately follow a presenter around.

Both Saber AP systems include an Intel NUC pre-configured with the tracking software, a Saber Plus camera and the necessary cables needed for installation.

**Saber AP HDMI** | Auto-tracking system utilising facial, shape and motion tracking to accurately track the presenter. HDMI video output for connection to a display or video encoder.  
**£4,648.00**

**Saber AP USB** | Auto-tracking system utilising facial, shape and motion tracking to accurately track the presenter. USB 3.0 video output for direct connection to a PC.  
**£4,848.00**

## INTEGRATOR PRICE LIST – NOVEMBER 2021

### Audio - Speakerphones

#### Wireless & Wired Speakerphones

**ASP-04**  
£319.00

Wireless USB speakerphone with folding SMA antenna for connection to a PC. 3 microphone elements providing 360-degree coverage and 5m pickup range. Built-in speaker.

Digital signal processing, echo cancellation and noise reduction all built-in. Wireless charging and 2.4GHz wireless connection up to 10m.

**ASP-04D-2**  
£599.00

ASP-04 Daisychain (2 Units). Utilise 2 ASP-04 units daisychained together for greater audio coverage in larger spaces. Devices connected via 2.4GHz wireless connection which can be maintained up to 10m.

**ASP-04D-04**  
£1,499.00

ASP-04 Daisychain (4 Units). Utilise 4 ASP-04 units daisychained together for greater audio coverage in larger spaces. Devices connected via 2.4GHz wireless connection which can be maintained up to 10m.

**ASP-05**  
£269.00

Wired USB speakerphone for direct audio connection to a PC. 3 microphone elements providing 360-degree coverage and a 5m pickup. Built-in speaker.

Digital signal processing, echo cancellation and noise reduction all built-in.

**ASP-10**  
£479.00

Wired USB speakerphone designed for boardrooms seating up to 20 people. 360-degree coverage, 5 metre radial pickup (10m diameter).

Use hand gestures to mute and unmute the mics by simply swiping over the speakerphone.

### Audio - Ceiling Microphones

#### Ceiling Microphone Systems

**ASP-C-01**  
£899.00

DSP based ceiling microphone system designed for videoconferencing, recording and streaming. 5 input / 3 output USB interface with 2x spherical hanging microphones.

REC output for connection to a recording device, Speaker audio output, AEC-In and Out. Digital signal processing, adaptive echo cancellation, noise suppression, speech gain adjustment and smart mixing.

**ASP-C-02**  
£699.00

DSP based ceiling microphone system designed for videoconferencing. 2 input / 1 output USB interface with 2x spherical hanging microphones.

Speaker audio output. Digital signal processing, adaptive echo cancellation, noise suppression, speech gain adjustment and smart mixing.

## INTEGRATOR PRICE LIST - NOVEMBER 2021

### Camera Controllers

#### PTZ Camera Controllers

**A-RS232TC**  
£339.00

RS-232 Joystick Controller for Angekis cameras. 3-axis joystick, control and switch between 7 daisy-chained Saber cameras, set up 46 camera presets, camera focus key.

**AN-IPC-10**  
£569.00

IP and RS-232 based joystick controller for Angekis cameras. 3-axis joystick, control and switch between 125 IP based cameras, set up to [blank] camera presets, camera focus key.

### Cables & Adapters

#### USB Extension Cables & Adapters

**U3C-01**  
£219.00

| 10 metre USB 3.0 fibre extension cable. USB 2.0 compatible.

**U3C-02**  
£259.00

| 20 metre USB 3.0 fibre extension cable. USB 2.0 compatible.

**U3C-03**  
£279.00

| 30 metre USB 3.0 fibre extension cable. USB 2.0 compatible.

**U2Ex-01**  
£169.00

| 4-port USB 2.0 extender - For up to 2x Blade cameras and 1x ASP speakerphone simultaneously.

**DHA-01**  
£7.00

| DVI to HDMI adapter - converts Saber DVI output to HDMI.

**DHC-01**  
£14.00

| DVI to HDMI cable - converts Saber DVI output to HDMI. 3 metres.

### U Shape Camera Ceiling Mounts

#### U Shape Ceiling Mounts

**UMP-01**  
£62.00

| 30 - 60cm U shape camera ceiling mount. Adjustable lengths.

**UMP-02**  
£72.00

| 60 - 120cm U shape camera ceiling mount. Adjustable lengths.

**UMP-03**  
£112.00

| 100 - 200cm U shape camera ceiling mount. Adjustable lengths.

**UMP-04**  
£162.00

| 150 - 300cm U shape camera ceiling mount. Adjustable lengths.

**INTEGRATOR PRICE LIST - NOVEMBER 2021**
**Temperature Checking Solutions**
**AccuScan**

**ACCS-01**  
 £2,299.00

AccuScan, the temperature checking solution designed to accurately measure the temperature of an individual before entering a building. 10.1 inch 800x1280 screen with +/- 0.2 degrees accuracy, fast speed, no contact, abnormal temperature alarm, accurate facial recognition and offline database of 20,000 people.

Dual modes: Quick Scan and Facial Recognition. Can be setup for automated gateway entry.

<b>ACCS-GROUNDA</b> £169.00	Aluminium alloy floor stand with round pole and floor plate, fixed height floor stand.
--------------------------------	--

<b>ACCS-GROUNDB</b> £299.00	Designer aluminium alloy fixed height floor stand.
--------------------------------	--

<b>ACCS-DESKBASEA</b> £109.00	Aluminium alloy desk mount with integrated connectivity and a 25cm base.
----------------------------------	--

<b>ACCS-LENSHOOD</b> £49.00	Aluminium alloy lens hood.
